

BEANZ 2020 Past Exam Q Revision Bundle

Contents of this Revision Bundle:

- ❖ BEANZ AS 91603 Plants & Animals - Practice Exams (2015 to 2019)
- ❖ BEANZ AS 91605 Speciation - Practice Exams (2015 to 2019)
- ❖ BEANZ AS 91606 Human Evolution - Practice Exams (2015 to 2019)

Formatting of Questions:

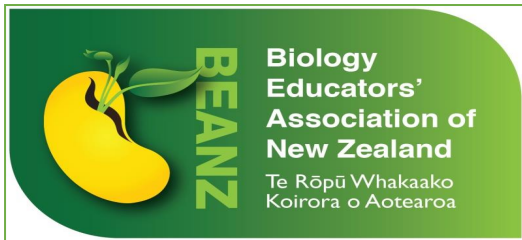

- All questions for each year and each standard has been individually split into separate word document files, with “**Q**” as the question, and “**AS**” as the Assessment Schedule
- All questions represent questions from the (full) Traditional Version of the paper (2017 onwards)
- The point allocation in the Assessment Schedule is a (recommended) **guide**.
 - Some were adjusted from the original versions of the exams
 - Teachers are welcome to change/adjust this accordingly
 - Alternatively, if the schedule is released to students (for self/peer marking), delete this section all together, and encourage students to attempt all parts of the question
- The judgement statements have been **removed** as these questions are intended to be used as revision and/or learning resource for both teachers and students
 - Remind students that during the NZQA externals, Grade Scores are NOT determined until a significant number of papers have been assessed and a distribution of scores is obtained

Other:

- Online/Digital assessment
 - Some schools in Auckland have requested if they could use the 2020 BEANZ Practice External Exams online (as a digital assessment) for their End of year/Derived grade/School Exams, due to the second lockdown
BEANZ would prefer that this is *NOT* done, as it may jeopardise the integrity and authenticity of this years’ paper
 - As an alternative, all Auckland schools will be offered this revision bundle free of charge, this year. It will then be up to the individual schools/teachers to mix and match, and decide which questions to use and put up as an online exam, if required by their school
